I was also informed there is a critical need for continued funding of ERRS for mine stabilization and treatment. The money the region received was enough for a week, and as I understand it, ERRS will be over ceiling, and activities would have to start winding down.

Do I have this correctly Laura?

Josh,

I may be dense here but, if all you need is someone to develop PRs for EAS, I think we can handle that from R8. Can you give me a guess on what the workload is that is anticipated? Right

**Importance:** High

Hi All – Per my phone conversations and vmail to David, here is the information I was calling about. As you can see, they need this task order funded as soon as possible. Also, they need someone to serve as the permanent TOCOR for the contract and we believe this should be someone from Region 8. Please give me a call if you have questions.

Ccing Pete Guria as the Area Commander.

**Subject:** RE: OUT OF MONEY - GOLD KING Mine call center will be out of money as of tomorrow.

For a PR in the EAS system - The Contract Number is EP W14 020. The task order it is running under right now is Task Order 4. The contractor is Systems Research and Applications Corp

International (SRA) Vendor Source # 097779698. The contracting office is HPOD NPSC. CC and access list after funding must include Deborah Dalton and Terry Fenton from OGC so that we can get notices and

## **Deliberative Process/Ex. 5**

Will OEM or Region 8 provide the TOCOR for the call center new task order? Right now we are doing it in cooperation with Brooke Hanson. Not sure that works in the long run.
